

Environmental Policy

Soni & Co Notaries is committed to leading the industry in minimising the impact of its activities on the environment.

The key points of our strategy to achieve this are:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible.
- Minimise toxic emissions through the use of our couriers (both internal and external) in relation to our Legalisation Services, as well as other services.
- Actively promote recycling internally particularly of paper, our major waste produce.
- Meet or exceed all the environmental legislation that relates to the firm.
- Work with *Green Achiever*, an accredited program, to offset the greenhouse gas emissions generated by our activities.
